

PRODUCT RESEARCH & **VALIDATION**

CHAPTER 1

Why Product Research Is Everything

The #1 Reason Businesses Fail :

- Most beginners fail because they sell the wrong product.
- No demand = no sales. It's that simple.
- In this training, you'll learn how to find and validate products before you waste time and money.

What Makes a Product Successful?

- Solves a problem people actually care about
- Delivers instant or visible results
- Can be easily demonstrated in a short video
- Has a healthy profit margin (aim for 3x markup)
- Is lightweight and easy to deliver (under 200g ideal for sourcing from China)

CHAPTER 1

Why Product Research Is Everything

Types of Winning Products (Examples)

- Problem solvers: Back posture corrector, teeth whitener, scratch remover
- Beauty enhancers: Lip plumper, hair filler spray
- Gadgets: Car vacuum, magnetic phone mount
- Lifestyle: Portable blender, LED lights

Keep in mind:

These go viral because they are visual, quick, and relatable

CHAPTER 2

Step-by-Step Product Research

The Research Process Overview

- TikTok + IG algorithm research
- Competitor spying (especially in Lebanon)
- Validate products using Facebook Ads Library + Kalodata
- Filter using the product criteria + advisor feedback

Setting Up Burner Accounts

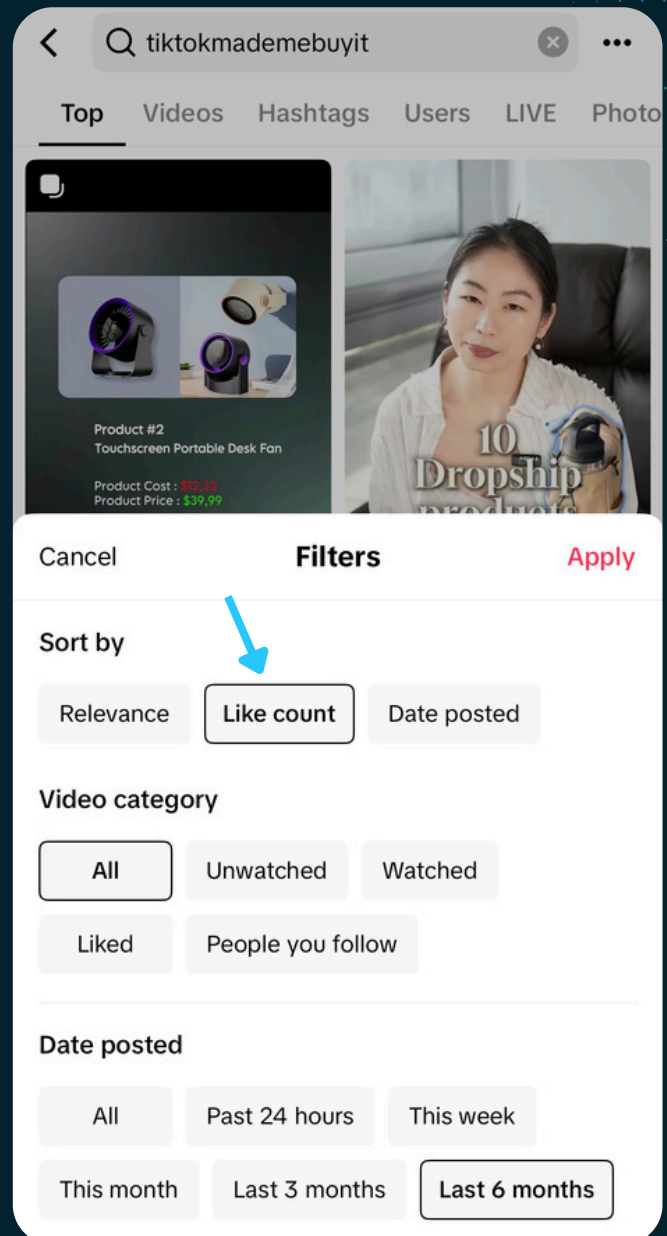

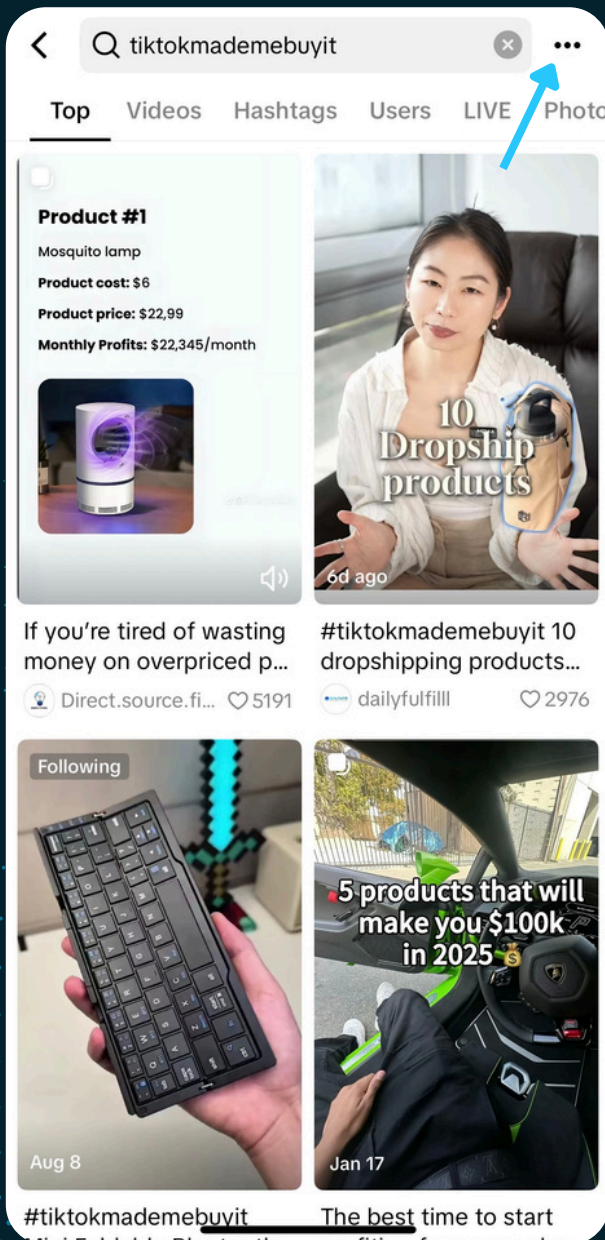

- Make a new TikTok + Instagram account just for research
- Like, save, comment on product-related videos
- Use hashtags like:
 - #tiktokmademebuyit
 - #problemfix
 - #dropshipping

You'll begin to get fed relevant product trends

Step 1: Search & Filter

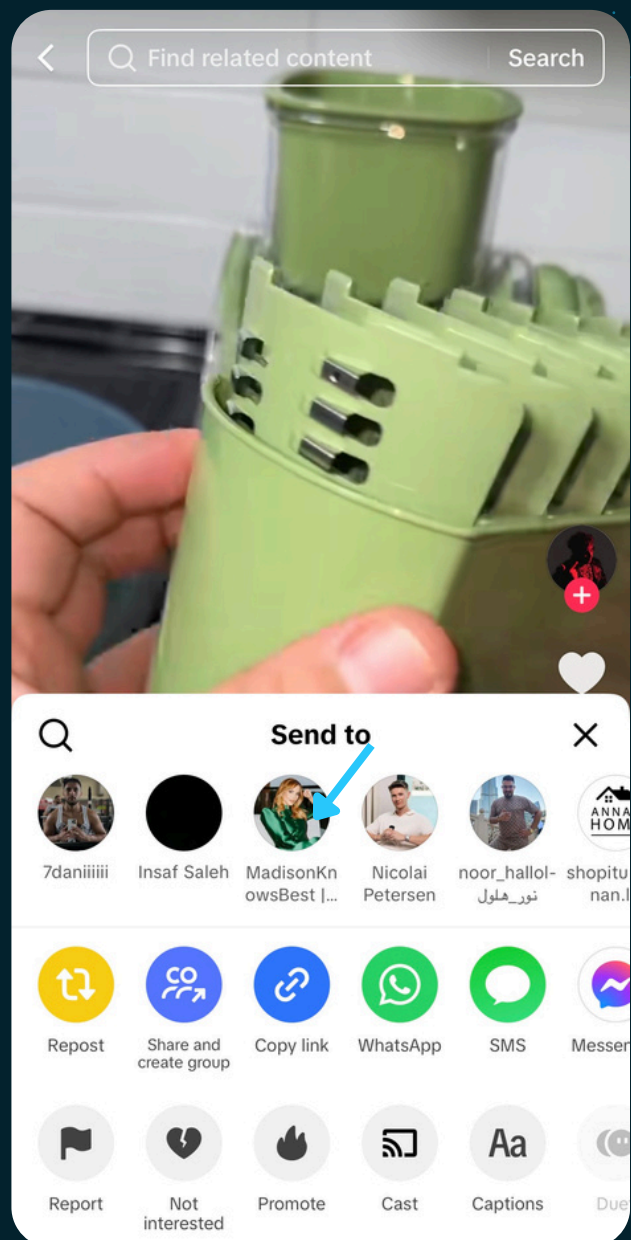

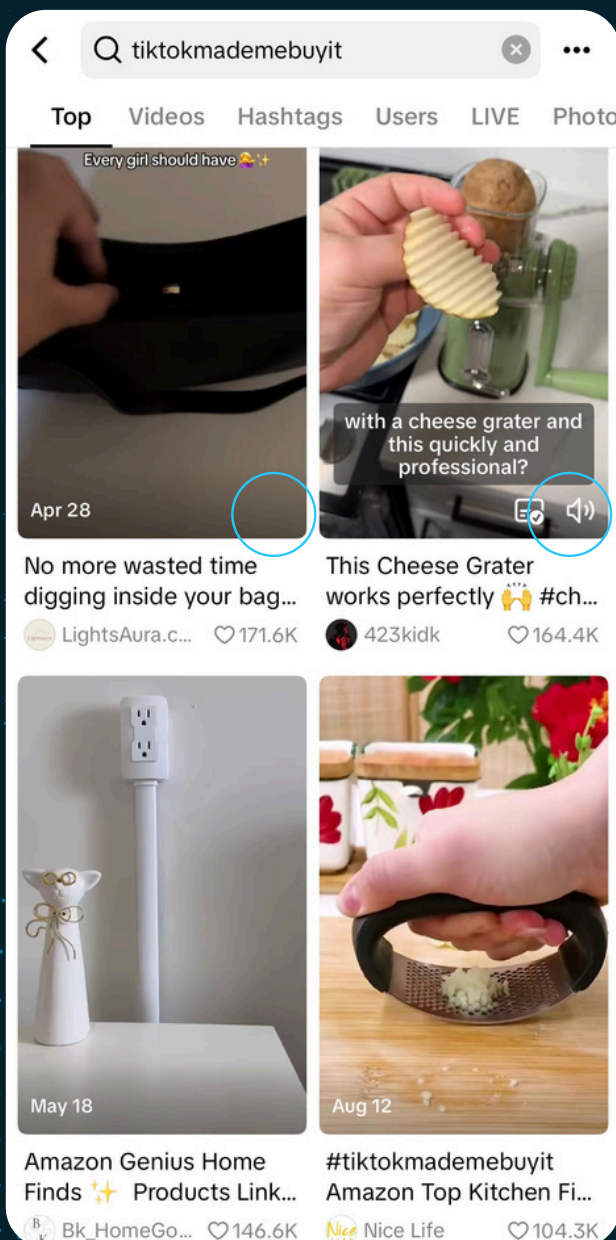

- Open TikTok
- Search: **#tiktokmademebuyit**
- Use filters: Likes, date posted, relevance
- Goal: Spot high-engagement product videos

Step 2: Browse & Save

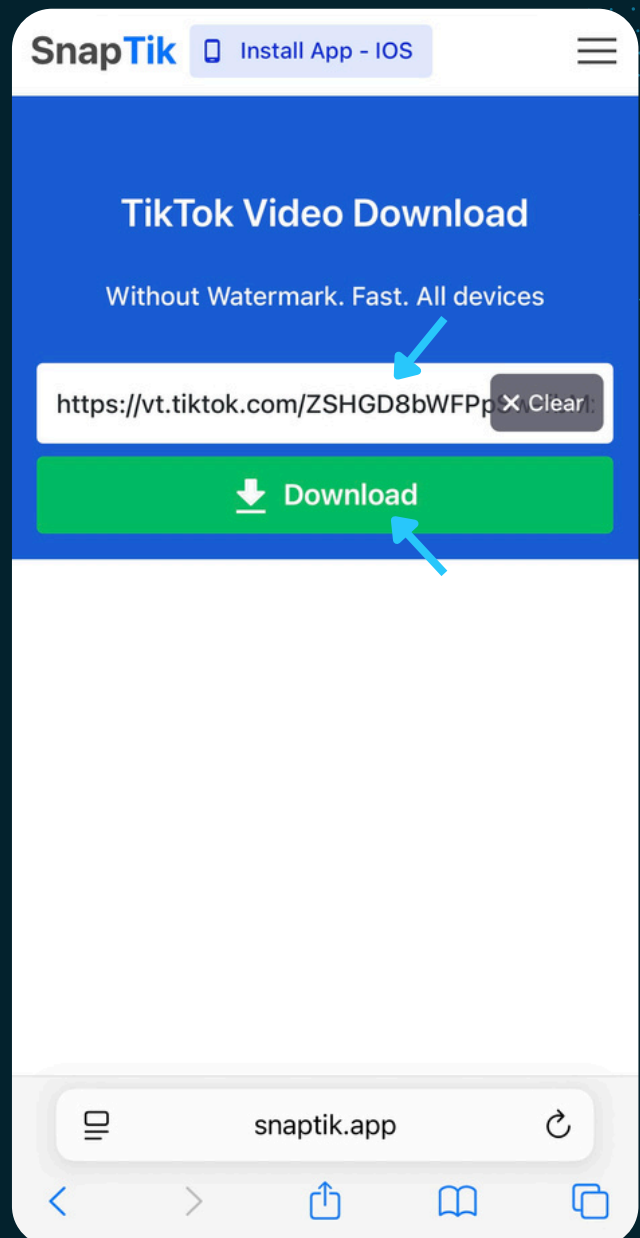

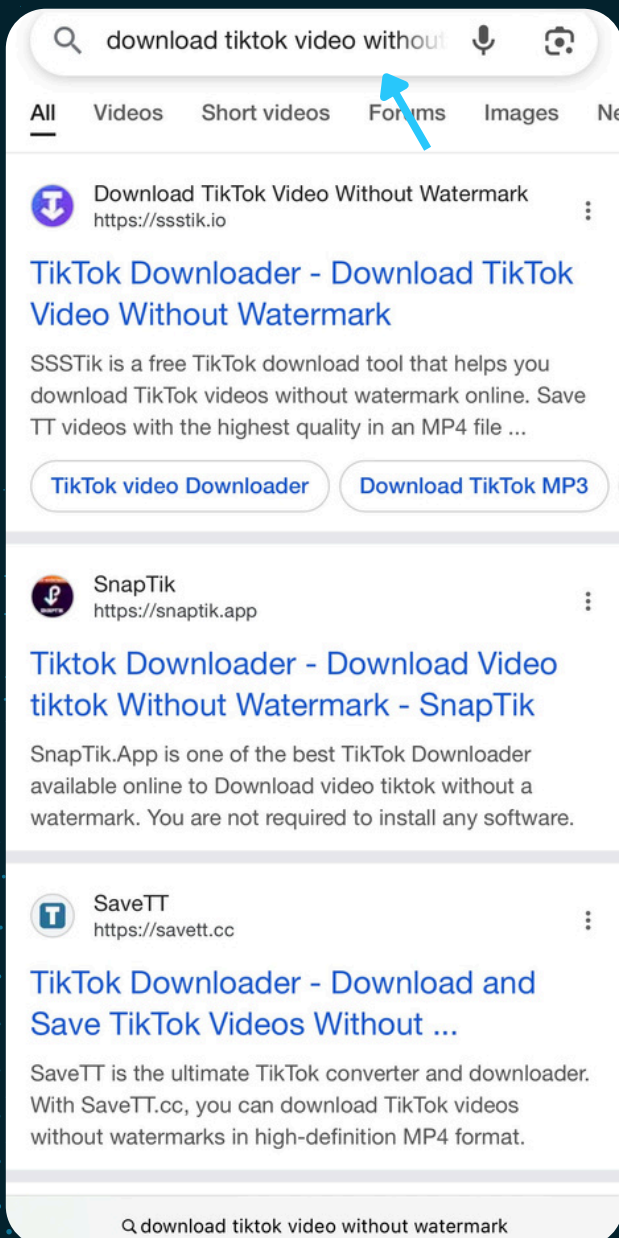

- Click on promising videos
- Watch for product demos or problem-solving angles
- Copy the link of videos you want to test or save

Step 3: Download for Testing

- Search “Snaptic” on Google
- Paste TikTok link
- Download the video
- You’re ready to test it in your ad creatives

CHAPTER 2

Step-by-Step Product Research

How to Use TikTok for Research

- Search terms like “car polish”, “hair removal”, “LED gadget”
- Study views, likes, saves
- Check comments: are people asking to buy?
- Save videos with clear demos or reactions, these often work best

Competitor Spy (Lebanon-Focused)

Find TikTok/IG sellers based in Lebanon

Analyze:

- Product they’re selling
- Their pricing and delivery method
- Their packaging (branded or not?)
- Try placing a fake order to understand how they operate

CHAPTER 2

Step-by-Step Product Research

Facebook Ads Library Breakdown

- Go to Facebook Ads Library
- Search keywords from your product idea
- Look for:
- Ad quality and structure
- Engagement (comments, shares, likes)
- What hooks and visuals they use
- Save ad examples that inspire you

ADS LIBRARY

CHAPTER 2

Step-by-Step Product Research

Using Kalodata to Validate Trends

- Go to kalodata
- Search by keyword (e.g. “neck stretcher”, “foot peel”)
- Check:
 - Seller rank and sales volume
 - Countries targeting similar markets
 - Product variations
 - Use it to confirm your product isn’t random it’s trending

KALODATA

CHAPTER 3

Product Criteria Checklist

The Non-Negotiables

Your product should:

- Solve a painful or annoying problem
- Be visual (can be shown in 15 seconds)
- Be lightweight (under 200g ideally)
- Be able to sell for at least 3x what you pay
- Be either trending or untapped locally

Products to Avoid

- Complicated electronics or things with moving parts
- Products that require sizing (like clothes, shoes)
- Items with vague use cases or no real value (keychains, toys)
- Anything fragile or breakable
- Complicated electronics or things with moving parts
- Products that require sizing (like clothes, shoes)
- Items with vague use cases or no real value (keychains, toys)
- Anything fragile or breakable

CHAPTER 3

Product Criteria Checklist

No Branding Until You're Sure

Only after approval should you start branding, sourcing, or building a store

Product Validation Strategy

- Choose your top 2–3 product ideas
- Use your criteria checklist to score them
- Send your product list to your personal advisor
- They will forward the top picks to your head coach for approval
- Choose your top 2–3 product ideas
- Use your criteria checklist to score them
- Send your product list to your personal advisor
- They will forward the top picks to your head coach for approval

CHAPTER 4

Personalized Discovery

Brainstorm From Your Own Life

Ask yourself:

- What's something that annoyed you recently?
- What's a gadget or item that helped you solve a problem?
- What are people around you complaining about?

Your personal experience is often the best source of product ideas.

Product Research Worksheet

In your PDF kit you'll find a worksheet.

Fill out for each product idea:

- Name & concept
- Problem it solves
- Platforms you saw it on
- Estimated cost & selling price
- Meets all 5 criteria? (Yes/No)

Keep this organized, it'll save you time later

CHAPTER 5

Next Steps

This Week's Action Plan

1. Create burner TikTok & IG accounts
2. Spend 30–60 mins per day engaging with product content
3. Identify 10–15 potential products
4. Shortlist top 3 using the checklist
5. Send them to your advisor for review and feedback

Coming Up Next: Sourcing & Branding

In the next presentation you'll learn:

Where to get your product (China vs Lebanon)

How to contact suppliers with confidence

How to create a strong brand name

How to set up your visuals & platforms You're getting close.

Once your product is picked, it's time to bring it to life
