

ORDER FULFILLMENT & **PACKAGING**

CHAPTER 1

Handling Orders Like a Pro

You've launched your store and ads, now let's fulfill orders.

In this module you'll learn:

- How to fulfill orders with a delivery company
- How to collect money via COD (Cash on Delivery)
- How to add basic branding to your packaging
- How to streamline the full process

What happens after your first sale?

- You get notified via WhatsApp, Shopify, or email.
- You forward the order to supplier
- Supplier will contact delivery partner which they will pick up the product and deliver it
- Customer pays on delivery (COD).
- You receive your money (usually twice a week).
- Transfer product cost to the supplier

CHAPTER 2

Choosing a Reliable Delivery Partner

Recommended Logistics Services in Lebanon

- **Wakilni:** Offers pick-up, packing, delivery, and live tracking.
- **Net Global (NetPoint):** Full-service shipping across Lebanon.

Example Order Template for Logistics

Name: [Customer Name]
Phone: [Phone Number]
Address: [Full Address]
Product: [Product Name]
COD Amount: [\$USD or LBP]

Tips:

- Ask about payment schedule, tracking, and returns.
- Save this as a reusable message in WhatsApp or your ordering tool

CHAPTER 3

Branded Packaging for Trust

Why Branding Matters (Even in COD)

- **Adds professionalism and trust**
- **Reduces complaints or order cancellations**
- **Helps you stand out and be remembered**

Quick Setup:

- **Use plain courier bags or boxes.**
- **Add your logo sticker to each package (can source locally)**
- **Include a branded insert with your Instagram and a discount code.**

Sticker Tips:

- **Use local print shops with white-label sticker services**
- **Delivery companies often allow you to drop stickers at their warehouse**
- **Avoid paying over \$10–15 USD per sticker sheet**

CHAPTER 4

Getting Paid & Managing Cash Flow

How COD Payments Work

- The customer pays the courier upon delivery
- Delivery partner collects and settles with you afterward
- Many providers offer payouts within 2–3 business days after delivery

Track Orders with a Google Sheet:

Columns:

- Name
- Product
- Ship Date
- COD Amount
- Payment Status.

Handling Returns:

- If the customer rejects the order, it goes back to the warehouse
- Some delivery services charge a small return fee
- Log these cases and follow up with customer support to minimize loss
