

SCALE SMART: **FUNNELS, PROFIT** & Growth Systems

CHAPTER 1

Understanding the Sales Funnel

Week's Goal:

Maximize Profits, Not Just Sales

You'll learn:

- How to optimize your sales funnel
- How to increase your average order value (AOV)
- How to set up upsells, bundles & automations
- Scaling methods for sustainable profit

What is a Sales Funnel?

A funnel is the step-by-step customer journey:

1. They see your ad
2. They click into your store
3. View product page
4. Add to cart
5. Buy
6. Might get upsell or email offer

Your Job:

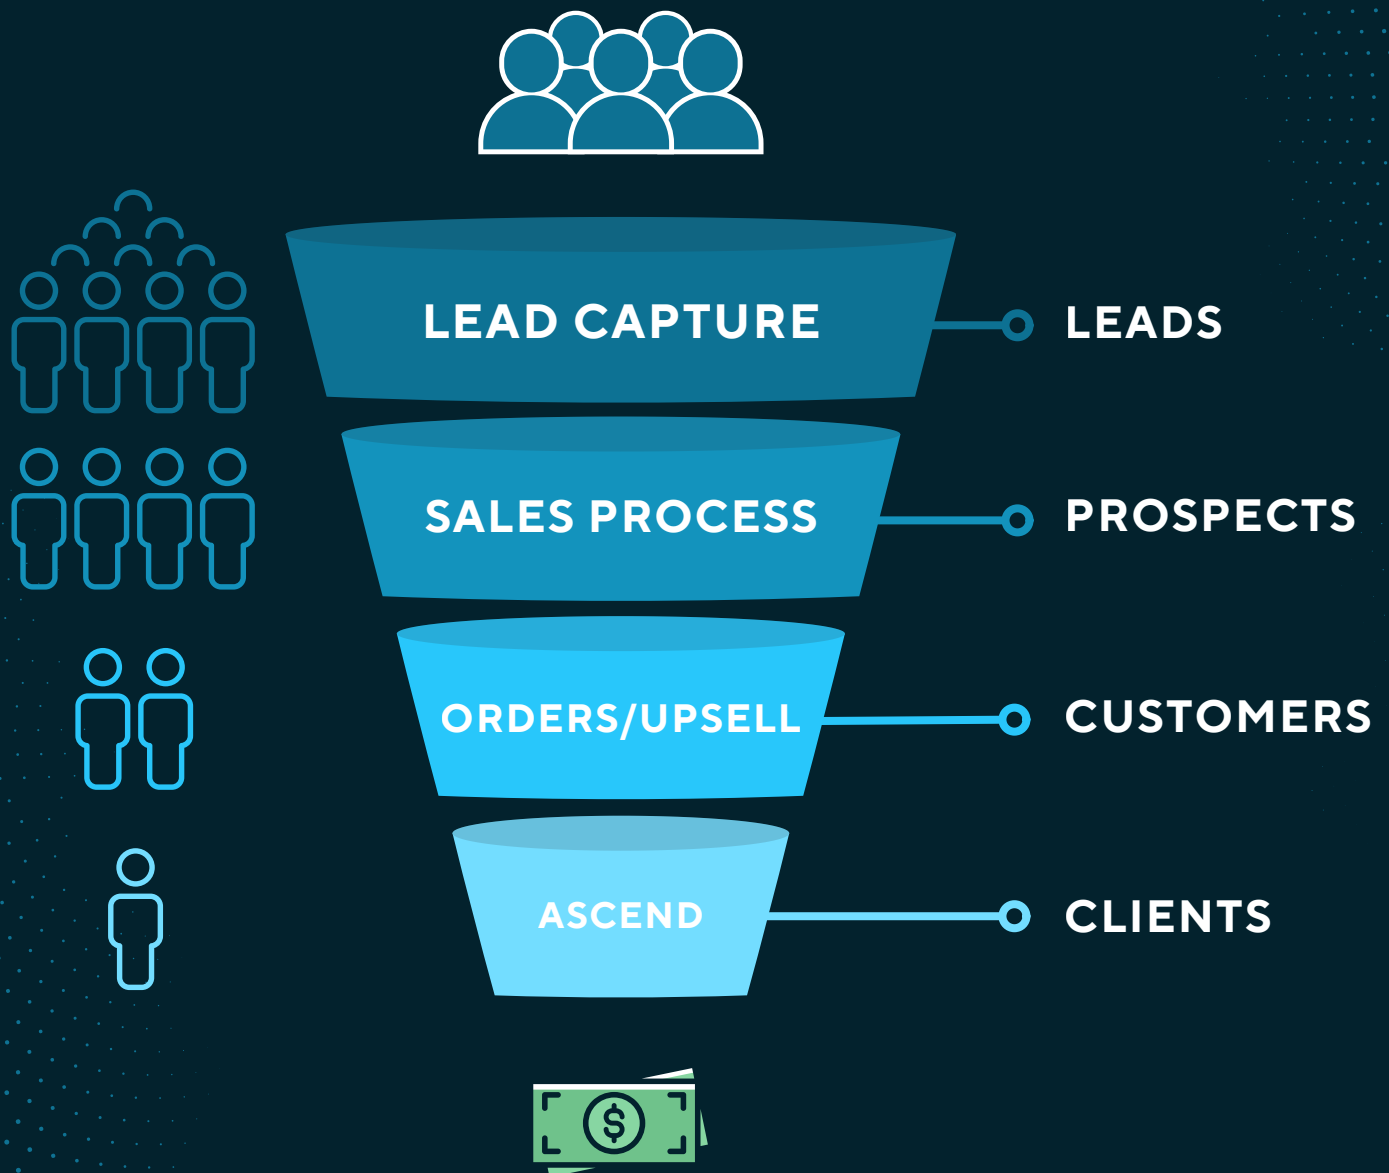

Make each step smoother and more profitable.

CHAPTER 1

Understanding the Sales Funnel

The Sales Funnel:

CHAPTER 2

Boosting Average Order Value (AOV)

Formula:

$$\text{AOV} = \text{Total Revenue} \div \text{Total Orders}$$

Example:

- 10 orders/day $\times$ \$20 = \$200/day
- Raise AOV to \$30 = \$300/day (same traffic, more profit)
- You don't need more customers — just better offers.

Tactics to Boost AOV:

- Upsells (post-checkout offers)
- Bundles (e.g., 3 skincare tools at a discount)
- Quantity discounts ("Buy 2 get 1 free")
- Free shipping threshold ("Free shipping over \$40")

Note

Focus on value perception, not just lower prices.

CHAPTER 3

Tools to Implement

Recommended Shopify Apps:

1. OneClickUpsell (OCU) – Easy post-checkout upsells
2. ReConvert – Upsell on the thank-you page
3. Bundler – Auto-create bundles
4. Vitals– All-in-one app (timer, reviews, upsells, etc.)

Action:

Add at least one AOV-boosting app this week.

CHAPTER 4

Smart Product Expansion

You don't need 20 products, but add smart:

- Add complementary items to your hero product.
- Use customer comments and reviews for ideas.
- Spy on TikTok/Facebook ads for trending products.

CHAPTER 5

Scaling Methods

Recommended Shopify Apps:

1. **Vertical Scaling:** Raise budget slowly on winning ads
2. **Horizontal Scaling:** Duplicate ads, change audience or creative
3. **Product Line Scaling:** Add similar products in the same niche

Note:

Always test, don't blindly spend. Watch ROAS.

CHAPTER 6

Key Metrics to Monitor

Track Performance Metrics

- **AOV:** Average Order Value
- **ROAS:** Return on Ad Spend
- **Conversion Rate:** % of visitors who buy
- **LTV:** Lifetime Value per customer

Tip:

Always test, don't blindly spend. Watch ROAS.

CHAPTER 7

Automate & Streamline

Act like a CEO:

- Use **Shopify Flow** or **Zapier** to automate order flow.
- Set up email flows for:
 - Abandoned carts
 - Post-purchase follow-ups
 - Reviews & repeat offers

Email Tools:

Add email marketing (Klaviyo, Omnisend) if you haven't yet

CHAPTER 8

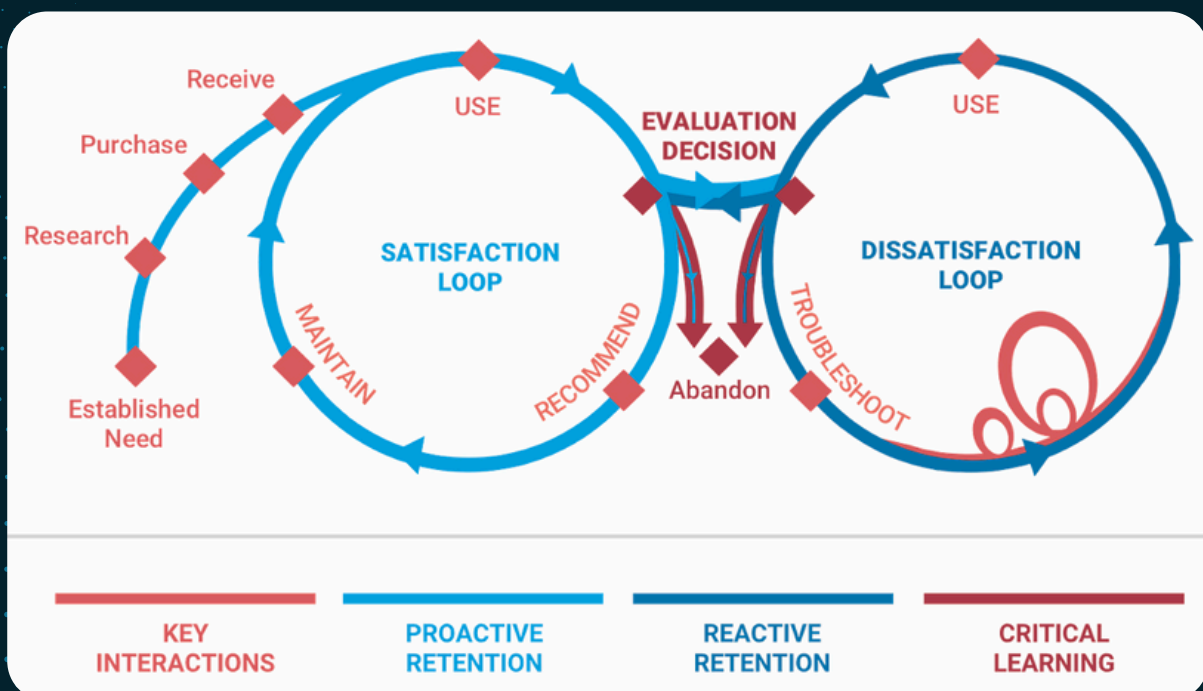

Retention = More Profit

Returning customers = 2–3x more profitable than new ones.

Retention Tactics:

- Personal confirmation emails
- Discount card inside packaging
- Referral link for friends

Customer Experience Lifestyle

CHAPTER 9

Execute & Elevate

Weekly Checklist

- Add an upsell or bundle app
- Add 1-2 complementary products
- Track AOV, ROAS, and Conversion weekly
- Create or launch email automations
- Test vertical or horizontal ad scaling

You're Ready to Scale Smart

- Shift from side hustle to business
- Focus on profit-first thinking
- Build scalable systems
- Retain customers for long-term growth
